ABOUT COMPANY

The first foundations of our company were laid with the automotive sector in 2011. Later on, with the joint efforts of our colleagues and founding partners, it started to operate in the corporate car rental, plastic and packaging sectors, respectively. Our company structure, which can renew and develop itself at any time, has given us the ability to turn the changing market conditions into opportunities in every period. As a company, we are always open to innovation, and we are constantly working with the same enthusiasm in order to present the real needs of the consumer with our business partners at an affordable price in the sectors in which we are experts according to the market needs. Our first priority, our philosophy is to always do the best no matter what we do; to be of maximum benefit to the companies we do business with us.

Firmamızın ilk temelleri 2011 yılında otomotiv sektörü ile atılmıştır. Daha sonra, çalışma arkadaşlarımız ve kurucu ortaklarımızın ortak çabaları ile sırasıyla kurumsal araç kiralama, plastik ve ambalaj sektöründe faaliyet göstermeye başlamıştır. Kendini her an yenileyebilen ve geliştiren şirket yapımız, değişen piyasa koşullarını her dönemde fırsata çevirme yetisini bize kazandırmıştır. Firma olarak yenilikle her zaman açık olmakla beraber piyasa ihtiyaçlarına göre uzman olduğumuz sektörlerde tüketicinin gerçek ihtiyacını uygun fiyata iş ortaklarımızla birlikte sunabilmek için sürekli aynı heyecanla çalışmaktayız. İlk önceliğimiz, felsefemiz ne iş yaparsak yapalım her zaman en iyisini yapmak; iş yaptığımız firmalara maksimum faydalı olmaktır.
